Taney in 1843 vs. Taney in 1857.

Chief Justice Taney, (says the Albany Journal,) turns Dred Scott out of Court on the ground that he is a Negro and a Slave, and consequently not a citizen and not entitled to sue in the U. S. Courts even to recover his freedom—the Court having no jurisdiction in such cases. The best answer to this is Chief Justice Taney's own decision in a similar case, that came before him in 1843.

James Ash, a Maryland Negro and Slave, sued for his freedom in the Circuit Court of the District of Columbia, as Dred Scott did in that of Missouri. The case was in like manner carried up to the U. S. Supreme Court.—But it met with a different reception and a different decision.

Mr Chief Justice Taney delivered the opinion of the Court. (We quote from *Williams v. Ash*, Howard's Reports, vol. 1, pp. 12, 13, 14.)

"This case," said his Honor, "is brought here by writ of error from the Circuit Court, and came before that Court upon a petition for freedom. It appeared upon the trial that the petitioner was the property of Mary Ann Greenfield, of Prince George's County, in the State of Maryland, who died in 1824, having first duly made her last will and testament, whereby, among other things, she bequeathed the petitioner, with sundry other Slaves, to her nephew, G. T. Greenfield, with a proviso in the following words.—Provided, he shall not carry them out of the State of Maryland, or sell them to any one, in either of which events, I will and devise the said negroes to be free for life.' Upon the death of the testatrix, G. T. Greenfield took possession of the petitioner, (James Ash) until December, 1839, when he sold the petitioner to the defendant, (Williams) and the petition for freedom was filed shortly after the sale.

Upon this evidence, the Circuit Court instructed the Jury, that by the fact of such sale of the petitioner the estate or property of the petitioner so bequeathed to Greenfield, ceased and determined and he therefore became entitled to his freedom. We think the bequest in the will was a conditional limitation of freedom to the petitioner, and that it took effect the moment he was sold. *The judgment of the Circuit Court is therefore affirmed.*

So that this same Chief Justice then held that a Negro might not only be a party to a suit before the U. S Supreme Court like any Citizen, but that a Slave might go there and recover his Freedom!

Which is the Law—that expounded by Taney in 1843, or his flat contradiction of himself in 1857?

Settlement of the Sound Dues Question. The Washington correspondent of the Baltimore Sun writes: "The Secretary of State has completed the arrangements with Denmark, through the Danish Minister, for the abolition of the Sound Dues. The amount we have to pay is $380,000, while that of England is near $6,000,000. The whole amount payable by all nations including England and the United States, is about $16,000,000. Denmark is forever to keep up the necessary light-houses."

In too great a Hurry. It is said that a young farmer living near the town of Knox, N. Y., ran away on Sunday with a young lady by the name of Hunt. He left the house while his wife and two children were absent at church. In his hurry to depart he left his pocket-book in "his other pantaloons." On examining the pocket book, it was found to contain $258, four love letters, and a lock of Miss Hunt's hair, done up in a true lover's knot.

New Publications.

Godey's Lady's Book, for May is received in its usual excellent season, and contains even a greater variety of good things than usual. The fashion plates are superb, and the frontispiece, "Dining Out," is one of the best things yet designed for Godey. The embroidery department is particularly rich, and worth to the ladies the whole price of the magazine. The stories, sketches and other articles are both attractive, and useful in their character.

Heavy Damages for Slander.—In Greenville, S C, a jury has awarded to a young lady $1000 damages against a citizen of that place for slander. After paying lawyer's fees the plaintiff devoted the remaining sum to benevolent purposes.

The Grand Trunk Railway Co., are causing an inspection of all the railroad bridges between Portland and Montreal. The engineers who are to attend to this duty passed over the line last week.

At Detroit, on Thursday, Eunice C. Hall recovered $5000 damages from Geo. W. Carne, for breach of promise of marriage. Carne is wealthy, and we should judge from the account given, deserved to bleed to that extent.

The National Hotel at Washington, now looks like a great sepulchre. It is quite deserted, closed up, and enveloped in a mystery as profound as that of the grave itself.

Kansas.—The House of Representatives on Friday passed the Kansas aid resolves, by a two thirds vote—206 to 103. By these resolves, stock of the Western Railroad Company, belonging to the Commonwealth, to the amount of $100,000, is to be placed in the hands of Commissioners, to be disbursed if occasion shall arise, in aid of the sons of Massachusetts, who have emigrated to Kansas.—*Boston Atlas.*

For the S. S. Committee to report the number of non-resident scholars now attending the various schools, with a list of their names.

For the Committee on Streets and Highways to report the condition of Bridges and Streets, with the amounts required for rebuilding or repairing the same.

The Ordinance to amend the Ordinance of 1854 for the reorganization of the Fire Department, was taken up in the Board of Aldermen, and non-concurred in the action of the Common Council, indefinitely postponing the same, and the ordinance passed to be engrossed.

The ordinance to amend the ordinance of 1853, further providing for the regulation of the Police, was then taken up in the Board of Aldermen and passed to be engrossed in concurrence.

An order for the Street Engineers to lay out a street from Valley Avenue to Kenduskeag Avenue. Referred to the Committee on Streets.

Resolve fixing salaries was passed in Board of Aldermen as follows:

City Clerk $400.
City Physician $200.
City Solicitor $200.
City Marshal, including horse and carriage, $850
Superintendence of Schools $750.
Overseers of the Poor $500.
Clerk of Common Council $80.
Deputy Marshal $600.

Assistant Assessors $2,00 per day.
Firemen $25 each.

The resolve also passed in Common Council concurring in the above. The Boards disagree in the following: In Common Council Chief Engineer of Fire Department's salary is put at $150, and Assessors at $2,00 per day. In Board of Aldermen they are $300 and $2,50 per day respectively.

In Board of Aldermen—

Samuel Shepard and William A. Blake were drawn as Grand Jurors, and John Lane and George C Pickering as Petit Jurors for U. S. Circuit Court, to be holden at Portland on Tuesday, April 23d.

The water in the Penobscot at Oldtown, was about a foot and a half higher yesterday than it was on Friday and Saturday. It has commenced falling again, however.

There were rumors here that the Oldtown toll bridge had gone. But this was without foundation; although the Oldtown Bridge was in so critical a situation yesterday noon that travel across it was prohibited. A pier on each portion of the bridge had been moved.

Nothing was known by the conductor on the B, O. & M. Railroad of the reported loss of the Lower Stillwater Bridge, and no bridge from above could have passed Oldtown without taking the Oldtown bridge.

We therefore conclude that the one reported to have been seen passing this city yesterday morning must have been from some small stream below Oldtown.

Concert.—An opportunity will be given to our citizens on Thursday evening next, to listen to some of the finest musical compositions that have ever been performed in this or any other city.

The establishment of a Musical Society, having for its object the regular practice of such authors as the Choral Society announce in their advertisement, should, we think, be hailed with delight by all who are desirous that what is really good and great in music, shall find a firm and stable footing among us. The members of the Choral Society require but to be assured that their efforts are appreciated by their fellow-citizens, to proceed steadily and progressively in the good work in which they are engaged; and the surest way to impress them with the fact will be for our citizens to crowd Norombega Hall on Thursday evening.

Mr. Arthurson has never sung in Bangor, but the reputation he has long held as the first Oratorio singer in the country cannot but augur a treat for those who enjoy something above the ordinary style. We think much credit is due to the Society for securing his valuable services. He has sung with some of the first artists who have ever visited the country, such as Parodi and Halberg, and *must* be good. Again we say let there be a full house.

Rather a Fix. The Picayune records a rebellion among the newspaper publishers of Mississippi. Their fees for legal notices having been reduced, they have unanimously refused to publish them at all.

Found Dead. A person named Anthony Smith, of Norway, was found, at South Paris, lying by the side of the road, near the house of H. B. Webber. It is supposed he must have been dead for some weeks.—*Oxford Democrat.*

A Business Scene.—The following business scene from "*Never too late to Mend*" is scarcely excelled by anything from the pen of Dickens:

Meadows found Mr. Clinton at Peel's.

"Mr. Clinton, I want a man of intelligence to be at my service for twenty-four hours. I give you the first offer, sir."

Mr. Clinton replied that he had so many irons in the fire, that twenty-four hours——

Meadows put a fifty pound note on the table.

"Will your irons iron you fifty pounds as flat as that?"

"Why, hem?"

"No, nor five. Come, sir, sharp is the word. Can you be my servant for twenty-four hours for fifty pounds? yes or no!

"Why that is dramatic—yes!

"It is half past two. Between this and four o'clock I must buy a few hundred acres in Australia at a fair bargain."

"Humph! Well, that can be done. I know an old fellow that has land in every part of the globe."

"Take me to him."

In ten minutes they were in one of those dingy narrow alleys in the city of London that look the abode of decent poverty, and they could afford to buy Grosvenor Square for their stables; and Mr. Clinton introduced his friend to the blue-eyed merchant in a large room prepared with maps; the windows were so incrusted, mustard and cress might have grown from them. Beauty in clean linen collar and wristbands would have shone here with intolerable lustre; but the blue-eyed merchant did not come out bright by contrast; he had taken the local color. You could see him and that was all, like a partridge in a furrow; a snuff-colored man; coat rusty all but the collar, and that greasy; poor as its color was, his linen had thought it worth emulating; blackish nails, cotton wipe, little bald place on his head, but didn't shine for the same reason the windows didn't. Mr. Clinton approached this "dhirrity money," this rusty coin in the spirit of flunkeyism.

"Sir," said he in a low reverential tone, this party is disposed to purchase a few hundred acres in the colonies."

Mr Rich looked up from his desk, and pointed with a sweep of his pen to the walls.

"There are the maps; the red crosses are my land. They are numbered. Refer to the margin of map and you will find the acres and the latitude and longitude calculated to a fraction. When you have settled in what part of the world you buy, come to me again; time is gold."

And the blear-eyed merchant wrote, and sealed, and filed, and took no notice of his customers. They found red crosses in several of the United States and Canada, in Borneo, in nearly all the colonies, and as luck would have it, they found one small tract within thirty miles of Bathurst, and the margin described it as five hundred acres. Mr. Meadows stepped toward the desk.

"I have found a small property near Bathurst."

"Bathurst—where is that?"

"In Australia."

"Suit?"

"If the price suits. What is the price, sir?"

"The book must tell us that."

Mr. Rich stretched out his arm and siezed a ledger and gave it to Meadows.

"I have but one price for land, and that is five per cent profit on my out-lay. Books will tell you what it stands me in; add five per cent to that, and take the land away or leave it."

With this curt explanation Mr. Rich resumed his work.

"It seems you gave five shillings an acre, sir," said Mr Clinton. "Five times five hundred shillings, one hundred and twenty-five pounds. Interest at five per cent, six pounds five."

"When did I buy it?" asked Mr. Rich.

"Oh! when did you buy it, sir?"

Mr. Rich snatched the book a little pettishly and gave it to Meadows.

"You make the calculation," said he; the figures are all there. Come to me when you have made it."

The land has been bought twenty-seven years and some months ago. Mr. Meadows made the calculation in a turn of the hand, and announced it. Rich rang a hand bell. Another snuffy figure, with a stoop and a bald head and a pen came through a curtain.

"Jones, verify that calculation."

"Penny, half-penny, two pence, penny, twopence. Mum, mum! Half-penny wrong, sir."

"There is a half-penny wrong," cried Mr. Rich to Meadows with a much injured air.

"There is, sir," said Meadows, "but it is on the right side for you. I thought I would make it even money against myself."

"There are only two ways, wrong and right," was the reply. Jones, make it right. There, that is the price for the next half-hour; after business hours to day add a day's interest; and, Jones, if he does not buy, write your calculation into the book with date—save time next customer comes for it."

"You need not trouble, Mr. Jones," said Meadows, I take the land. Here is two hundred and fifty pounds—that is rather more than half the purchase money."

"Jones, count."

"When can I have the deed, sir?"

"Ten to-morrow."

"Receipt for two hundred and fifty pounds," said Meadows, falling into the other's key.

"Jones, write receipt—two, five, naught."

"Write me an agreement to sell," proposed Meadows.

"No, you write it; I'll sign it. Jones, enter the transaction in the books. Have you anything to do, young gentleman?" addressing Clinton.

"No, sir."

"Then draw this pen through the two crosses on the map and margin. Good morning, gentlemen."

And the money-making machine rose and dismissed them, as he had received them, with a short, sharp, business conge.

Ye fair, who turn a shop head over heels, maul sixty yards of ribbon and buy six, which being sent home, insatiable becomes your desire to change it for other six which you had fairly, closely, and with all the powers of your mind, compared with it during the seventy minutes the purchase occupied, let me respectfully inform you that the above business took just eight minutes, and that "when it was done, 'twas done."

The New York Senate has passed the bill amendatory of the Trinity Church Act of Jan. 25, 1814. It provides for the election annually of two Church Wardens and twenty Vestrymen—half of them by the pew-holders and communicants of Trinity and its chapels, and half by delegates to be elected by the vestries of the several Protestant Episcopal Churches in New York, other than Trinity. These latter are to be elected on Tuesday of Easter week. The income of Trinity is to be applied by the Rector and the two Church Wardens and twenty Vestrymen, in the following manner: First: For the proper maintainance, support and renovation of Trinity Church and Chapels, to be disbursed under the sole direction and discretion of the Rector and those Church Wardens and Vestrymen who are elected by the pew-holders and communicants of Trinity. Second: The income and the proceeds of the sales of any of her property shall be applied to the payment of the interest of Trinity's debt, and afterwards to the extinguishment of the debt itself. The residue shall go to the "general purposes of the original grant."

Legislative.

FRIDAY, April 10.

Senate. Bill additional in relation to the Supreme Court, and judicial proceedings was read a second time. Mr. Scammon moved to amend by providing for 6 justices as the law court and for capital trials, and the concurrence of 5 on all points, and leaving their designation to the court itself.

Mr. Scammon's amendment was adopted, and the bill as amended passed to be engrossed.

Mr. Scammon called up the resolve in favor of the Reform School, and continued his remarks in opposition to the amendment to reduce the appropriation to $16,000.

Mr. Scammon called for a division of the question, so as to take it first on striking out $22,000, and the motion to strike out was taken and decided in the affirmative, yeas 13, nays 11.

Mr Brown moved to insert $20,000.

Mr. Davis thought the sum too large. He understood that many idiots from our cities were in the institution as pupils, which accounts in some degree for its large expenses. He believed the institution could be managed for $15,000 a year.

Mr. Magoun inquired the source of this information.

Mr. Davis said the information was contained in a letter received from a member of the House.

Mr. Scammon knew of this letter. It was from an anonymous source, disgracing the cognomen of "Republican." He denied that there were idiots in the institution.

Mr. Davis replied.

The motion to insert $20,000 prevailed—yeas 17, nays 7—and the resolve passed to be engrossed.

Passed to be engrossed—Resolve in favor of Franklin Adams; bill additional in relation to the disclosure of poor debtors.

Passed to be enacted—Bill to incorporate the Penobscot River Bank; to incorporate the Norombega Bank.

House. Resolve in relation to the North American and European Railway, laid on the table yesterday by Mr. Stinchfield of Lincoln, was read once and assigned for second reading.

Passed to be enacted—An act to incorporate the Norombega Bank; to incorporate the Penobscot River Bank.

The House resumed the consideration of the bill relating to the liability of stockholders of corporations.

Mr. Brown of Milford, moved the previous question, and the House sustained the call.—The question being on its passage to be engrossed, Mr Drummond asked for the yeas and nays—and being taken, the bill was refused a passage—yeas 40, nays 65.

The House then resumed the consideration of the Kansas Resolves.

Mr. Hathaway of Bloomfield, addressed the House in support of the report and the resolves. The yeas and nays being taken, the resolves passed—yeas 85, nays 14.

Sudden and Singular Death. P. Rogan died suddenly yesterday after a great deal of intense suffering. It is thought that he was poisoned on Thursday last by handling hides. If Mr. Rogan was poisoned by handling them, it must have been done by means of a small pimple which made its appearance on his face the day before. It is supposed that while handling the hides he rubbed this pimple in such a manner as to get the poison into the circulation. He was not seriously ill till Saturday, when the pimple commenced swelling very rapidly. It soon extended to his whole head, and then descended to his body as far down as the waist. At the time of his death his head was as large as a half bushel, while his features were so distorted that his most intimate friends could not recognize him. The death of Mr Rogan has had two opinions—one is that he died from the effect of poison, while the other is, that the matter introduced into the pimple led to erysipelas, and that to death. Mr R. was a young man of good habits.—*Albany Journal.*

Extraordinary Journey by a Cat. Eighteen months ago, J. Jenkins, 26 Portland St, Philgwently, while living at Northampton, got a young kitten, which had evidently strayed from a neighboring forest. It grew to be a remarkably large, strong cat, and was firmly attached to the household. From Northampton Jenkins and his family removed to Rotherhithe, London, and afterwards to Swansea. When the bustle of removal from London was going on the cat disappeared, and in due course the family arrived at Swansea, a distance of 220 miles, and in three weeks the cat appeared at the door of the house in Swansea, where his family lived, bearing the marks of long travel and want. His feet were bared of their usual covering, and he appeared as though he had scarcely partaken of food for days.

ROBIN'S COME.

From the elm tree's topmost bough,
Hark! the robin's early song,
Telling one and all, that now
Merry spring time hastes along;
Welcome tidings dost thou bring,
Little harbinger of spring.
Robin's come.

Of the winter we are weary,
Weary of its frost and snow,
Longing for the sunshine cheery,
And the brooklet's gurgling flow;
Gladly when we hear thee sing
The reveille of the spring.
Robin's come

Ring it out o'er hill and plain,
Through the garden's lonely bowers,
Till the green leaves dance again,
Till the air is sweet with flowers;
Wake the cowslip by the rill,
Wake the yellow daffodil.
Robin's come.

Then, as thou wert wont of yore,
Build thy nest and rear thy young,
Close beside our cottage door,
In the woodbine leaves among;
Hurt nor harm thou need'st not fear,
Nothing rude shall venture near.
Robin's come.

Swinging still o'er yonder lane,
Robin answers merrily;
Ravished by the sweet refrain,
Alice claps her hands in glee,
Shouting, from the open door,
With her clear voice, o'er and o'er,
"Robin's come!"

Consumption can be Cured.

Sir James Clark, Physician to Queen Victoria, and one of the most learned and skillful men of the age, in his "Treatise" on Consumption says—"That Pulmonary Consumption admits of a cure, is no longer a matter of doubt; it has been clearly demonstrated by the researches of Laennec and other modern pathologists."

The mere fact that such a disease is ever curable, attested by such unimpeachable authority, should inspire hope, and ... in the heart of every sufferer from this disease.

QUERIES.

Will Mr. Porter, the distinguished (?) Barrister, inform the public if he has paid his *initiation fee* at the Bar?—and if he has yet recovered from that headache, which, I am informed, he says was produced by a "kick in the gluteal region?" Until the above interrogatories are satisfactorily answered, (in the affirmative,) and a committee of physicians pronounce the legal gentleman sane, I must decline to take further notice of him, as I would much rather notice that more distinguished animal the Memphis Americans.

So far as Mr. Porter states that I exact fees for interviews, it is *false—absolutely false*, and I cannot help repeating the celebrated retort of Agamemnon to Achilles, in the war council before the Trojan city,

His short lived friendship and his groundless hate."

The bony finger of Death has set its seal upon many a fair forehead in punishment for neglect. Why will the young neglect the Cold and the Cough, they are as surely the pioneers of Consumption as day is the forerunner of night. Do not neglect the slightest Cough, it comes in the springtime of life, the busy sower of disease. Meet it with Mrs. Gardner's Balsam of Liverwort and Hoarhound, and all is well, it will depart instanter. Give it no cordial greeting—it will hang around and finally alarm you of its danger when forever too late. Dr Clay is at the Hatch House. Call and see him. *No charge for an interview*

OTIS'S LIGHTNING RODS.

From Professor Loomis, of Georgia

Having for the past 8 years given considerable attention to the various departments of electrical science and having examined many lightning conductors, North and South I have no hesitancy in pronouncing Otis's Patent Insulated Lightning Conductor as embodying more of the necessary scientific principles, and of the conditions of certain protection, than any now in use in this country

The elegant and perfect method of insulation constitutes its chief excellence, while it combines all the advantages of other rods. *When the rod passes through glass rings, which are supported by metallic iron bolts screwed into the walls of the house*, as in the old method, the glass is easily broken. 1st, by being interposed between two metallic surfaces. 2d, by the condensation of the atmosphere before an electrical current, 3d, by the violent collapse of the air which immediately follows, and 4th, by the heat of the electrical discharge, like the pouring of hot water into a glass tumbler. The insulators being thus broken, the electrical fluid is thus invited into the building, (by the rod coming in contact with the iron bolt.) *Many houses with this imperfect protection, have been destroyed by lightning.* But a few days since I saw a small brick house struck, though *protected* by two such rods. I regard the inventor of this *non conductor* as a benefactor of mankind, in having furnished the world with so certain a protection to life and property against the most terrific agent. J N LOOMIS

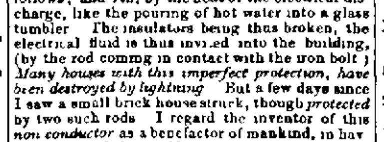

This cut represents *Otis's Improved Insulator*. *A* being the collar which secures the Insulator to the building. *B* the solid glass bolt introduced between the rod and building. *C* the lateral point, with the aperture through which the rod passes.

All orders addressed to the subscribers, at Bangor, for Otis's Rods, in this county, will be promptly attended to

We will also furnish and put up the Rod running through glass rings for 6¼ to 8 cts per foot

GROVER & BAKER'S

New Family Sewing Machines!

PRICE $75.00.

Reasons

Why Grover & Baker's SEWING MACHINE —IS— Universally preferred for Family Sewing

1st It is more simple and easily kept in order than any other Machine

2d It makes a seam which will not rip or ravel though every third stitch is cut

3d It sews from two ordinary spools and thus all trouble of winding thread is avoided while the same Machine can be adapted at pleasure by a mere change of spools to all varieties of work

4th The same Machine runs silk linen thread and common spool cotton with equal facility

5th The seam is as elastic as the most elastic fabric so that it is free from all liability to break in washing, ironing or otherwise

6th The stitch made by this Machine is more beautiful than any other made either by hand or machine

We have been appointed agents for the above Machines and have them for exhibition and sale at our store, where the public are invited to examine them FENNO & HALE

Letter Paper.

ANOTHER large lot of Letter, Note, and Bill Paper, [illegible] for sale at very low prices, by HIGHT & DREW.

ONLY ONE BOTTLE —OF— DR. SANFORD'S INVIGORATOR OR LIVER REMEDY!

SANFORD'S LIVER INVIGORATOR

IS REQUIRED TO CURE ANY ONE TROUBLED with Liver Complaints, unless the most desperate of cases, when the second bottle will restore the patient to health and vigor We wish to call the attention of all to these facts, that the Invigorator is compounded by a physician who has used it in his practice for the past 20 years, with a success most incredible, and that it is entirely vegetable, being composed wholly of gums.

Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of calomel, without any of its deleterious effects

One bottle is the surest way [illegible] the bad effects of any thing known to carry all mineral poison of any kind

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all yellowness or unnatural color from the skin

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring

Only one dose taken before retiring will prevent nightmare

One dose taken at night loosens the bowels gently and cures costiveness

One dose taken after each meal will cure dyspepsia

One dose of two tea spoonful will always relieve sick headache

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure

Only one dose immediately relieves cholic

One dose often repeated is a sure cure for cholera morbus, and a preventive of cholera

One dose taken often will prevent the recurrence of bilious attacks, while it relieves all painful feelings

One or two doses taken occasionally is one of the best remedies for a cold ever known

Thousands of cases of inflammation & weakness of the lungs have been cured by the Invigorator

One dose taken a short time before eating, gives vigor to the appetite, and makes food digest well

One dose, often repeated, cures chronic diarrhea in its worst forms, while summer and bowel complaints yield almost to the first dose

One or two doses cures attacks caused by worms, while for worms in children, there is no surer, safer and speedier remedy in the world, as it never fails

There is no exaggeration in these statements, They are plain and sober facts, that we can give evidence to prove while all who use it are giving their unanimous testimony in its favor

We wish all who are sick and debilitated to try this remedy, and test it thoroughly and any who are not benefitted by its use we should like to hear from them as we have yet to hear from the first person who has used a bottle of Invigorator without receiving benefit, for there are such astonishing medicinal virtues in it, that all, no matter how long they have been afflicted if their complaint arises from a deranged liver, will be benefitted, if not entirely cured

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world In all the various trades, and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship A perfect Sewing Machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss The entire *reliability* of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers Such machines are made to catch the eye not to perform substantial work The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work The machines which have proved best for all other purposes must be best for family use, and they are Singer's The speed of our machines has lately been doubled No other can compare with them in quantity of work.

New machines, of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers Local agents wanted to sell our machines

N B—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I M Singer & Co's Gazette," a paper devoted entirely to the subject It will be sent gratis I M SINGER & CO

GLAUBER SALTS [illegible] SAM'L DEARING.

THE GREATEST MEDICAL DISCOVERY Of the Age.

Dr KENNEDY, of Roxbury, has discovered in one of our *common pasture weeds*, a remedy that cures

EVERY KIND OF HUMOR;

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will clear the system of biles

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst case of Erysipelas

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism

Three to four bottles are warranted to cure the salt rheum

Five to eight bottles will cure the worst cases of scrofula

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken

Reader, I peddled over a thousand bottles of this in the vicinity of Boston I know the effect of it in every case So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another, after a trial it always speaks for itself There are two things about this herb that appear to me surprising, first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor

In order to give some idea of the sudden rise and great popularity of the discovery I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it There is a universal praise of it from all quarters

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have

I know of several cases of Dropsy, all of them aged people, cured by it For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c, the discovery has done more good than any medicine ever known

No change of diet ever necessary—eat the best you can get, and enough of it

DIRECTIONS FOR USE —Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H. H. HAY, 15 & 17, *Market Square, Portland, Maine,* to whom all orders should be addressed Sold by respectable Druggists throughout the United States and British Provinces

PRICE $1.00.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF **Colds, Coughs, and Hoarseness.**

BRIMFIELD, Mass., 20th Dec., 1855

DR. J C AYER I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT M D

A. B MORTLEY, Esq., of Utica, N Y., writes "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty five dollars for a bottle than do without it, or take any other remedy"

Croup, Whooping Cough, Influenza.

SPRINGFIELD, Miss., Feb. 7, 1856.

BROTHER AYER I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup,* and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M D

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan, 1856 "I had a tedious Influenza, which confined me in doors six weeks, took many medicines without relief finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs less than one half the bottle made me completely well Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend"

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA, Feb 4 1856

SIR Your CHERRY PECTORAL is performing marvellous cures in this section It has relieved several from alarming symptoms of consumption and is now curing a man who has labored under an affection of the lungs for the last forty years HENRY L PARKS, Merchant

A A RAMSEY M D, ALBION, MONROE Co IOWA writes Sept 6 1855 "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable"

We might add volumes of evidence but the most convincing proof of the virtues of this remedy is found in its effects upon trial

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this Some no human aid can reach but even to those the CHERRY PECTORAL affords relief and comfort

ASTOR HOUSE NEW YORK CITY March 5 1856

DOCTOR AYER LOWELL I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife [illegible]
